

JOE POWERS

SOFTWARE ENGINEER | [GITHUB.COM/READYSETJOE](https://github.com/READYSETJOE)

OBJECTIVE

I want a job that is challenging and rewarding, a team that is full of vibrant and engaged people, and to do work that matters.

SKILLS

I love puzzles and public speaking.

Here are a few of my skills/languages, but this is by no means exhaustive. I just hate when people list a million things here to try and SEO their way to an interview:

- Front-end
 - React
 - Material UI
 - RTL
 - Tailwind
 - Figma
- Back-end
 - Node
 - GraphQL
 - Jest/Ava
 - Django
- Database/DevOps
 - MongoDB
 - Kubernetes
 - Heroku
 - Amazon Amplify & S3
- Miscellaneous
 - Solidity
 - Hardhat
 - Ethers/Web3

EXPERIENCE

SOFTWARE ENGINEER • BANDWAGON • DEC 2019 – PRESENT

In a smaller company, everyone does a bit of everything. Here are the two main products I worked on. They use the tech listed under “Skills”

- [POET](#), an NFT educational tool used to create “Proof of Experience Tokens” on an eco-friendly blockchain. It’s like the web3 equivalent of making copies of photos from a film camera to give to your friends.

Try it at poe.xyz

- [IdealSeat](#), a white label ticket marketplace that provides personalized ticketing solutions to organizers and event owners.

Try our live demo site at demo.idealseat.com

DESIGN ENGINEER, ET AL • GE POWER • JAN 2014 – JUL 2019

- 1.5yrs as a design engineer for industrial gas turbine turbomachinery
- 2yrs in the Edison Engineering Development Program performing in multiple roles spanning controls and software development to aeromechanics analysis and design

EDUCATION

BS ME • DEC 2015 • GEORGIA INSTITUTE OF TECHNOLOGY

GPA: 3.14, HOPE Scholarship Recipient

FULLSTACK IMMERSIVE COURSE • NOV 2019 • CAROLINA CODE SCHOOL

12wk bootcamp geared for software development

OTHER STUFF

My favorite personal project I’ve made is called [branch.out](#), which uses a user’s Spotify data to find upcoming concerts in their area.

I’m in a band called Wolfgang Wallace, I’ve run multiple Dungeons and Dragons campaigns, and I played rugby for 4 years in college. Gimme a call, I’d love to talk.
