

# JTP

## HEY, I'M JOE POWERS

SOFTWARE DEVELOPER | [GITHUB.COM/READYSETJOE](https://github.com/READYSETJOE)

## OBJECTIVE

I've recently left a high-paying, incredibly secure job for a corporate monolith for one reason: I didn't matter.

I want to find a company that is challenging, full of vibrant and engaged people, and most of all I want it to matter.

## SKILLS

I love puzzles and public speaking.

Here are a few of my other skills/languages below, but this is by no means exhaustive:

- Front-end: React JS, Bootstrap, Spotify Web API, Songkick Web API
- Back-end: Django, Django Rest Framework, Django Social Auth, Heroku, Amazon S3
- MATLAB/Excel/Word
- 3D CAD & ANSYS
- Conversational Spanish (very rusty)

## EXPERIENCE

### DESIGN ENGINEER, ET AL • GE POWER • JAN 2014 – JUL 2019

I spent a total of 4.5 years at General Electric, with these major roles:

- 1.5yrs as a component owner for industrial gas turbine turbomachinery
- 2yrs in the Edison Engineering rotational program performing in multiple roles spanning controls and software development to aeromechanics analysis and design

## EDUCATION

### BS ME • DEC 2015 • GEORGIA INSTITUTE OF TECHNOLOGY

GPA: 3.14, HOPE Scholarship Recipient

### FULLSTACK IMMERSIVE COURSE • NOV 2019 • CAROLINA CODE SCHOOL

12wk bootcamp geared for software development

## OTHER STUFF

I play in a band called Wolfgang Wallace, and critics rave we're "not that bad, I guess."

I'm currently running multiple Dungeons and Dragons campaigns, and played rugby for 4 years in college after wrestling throughout high school. Who says you can't have it all?

I perform improv comedy, I try new things, and I can't cook to save my life. Gimme a call, I'd love to talk.
